

Our company acts as an advisor within the scope of the Packaging Ordinance. Due to our experience in setting up individual compliance schemes as defined by the Packaging Ordinance our work focuses on advisory service, drawing up mass flow verifications and coordinating the different persons concerned. Besides, Mr Dr Rhein is qualified as an appointed and sworn expert for the disposal of packaging in order to verify and certify individual compliance schemes.

Our range of services regarding the Packaging Ordinance comprises the following points:

I.) The **verification** of:

- **1. individual compliance schemes pursuant to § 6 (1) and (2) VerpackV**
- 2. dual systems pursuant to § 6 (3) VerpackV

II.) The advisory service for manufacturers and distributors in terms of implementing the Packaging Ordinance, i.e. as regards

- showing appropriate and individual solutions
- conclusions of agreements with dual systems [§ 6 (3) VerpackV] or authorized third parties pursuant to § 11 VerpackV
- setting up individual compliance schemes and/or groups
- drawing up **mass flow verifications** and taking on all tasks related to this

III.) The advisory service for waste management companies as regards setting up individual compliance schemes

IV.) Drawing up:

- expert's opinions (e.g. concerning sorting in order to ascertain chargeable quantities, classification of the term “no-throw” or as a strategy decision for a dual system or an individual compliance scheme)
- processes for ascertaining packaging belonging to a particular system when packaging is collected by several systems (→ “Clearingstelle”)
- system compatibility examination pursuant to § 7 VerpackV
